

To The FCC: I would strongly recommend that you reject "NAB's petition-04-160 on the basis that we live in a very fast pace society today and everything we do depends on tv,radio ,newspapers,computers, & XM Radio. Instant traffic & weather stations from xm radio while you are traveling are hughly important, and can save lives, route you around traffic jams,warn you of dangerous weather ahead and in most cases you don't have to wait through endless commercials and station promotions to get the needed information. Plus all the other benefits of this new technology satelite XM system. This is a typical assault of a big company thats losing ground to a better way of obtaining information for The American Public. Isn't that what America is all about--FREEDOM to CHOOSE !!!! Leave XM Radio Instant Traffic and Weather stations to those of us that "CHOOSE" a BETTER WAY!!!!

THANKYOU
